CONSUMERS'

BENEFIT COAL CO., SHARES \$10.

Each share entitles the holder to one ton of coal per year, in the cost of mining, transportation and delivery (which is now about \$8 per ton), also to a share of the profits on the sale of coal produced beyond the quantity supplied to shareholders.

Those who buy for investment can have the coal they will be entitled to sold for their benefit, and receive the proceeds over the cost in cash.

Investment in this stock is not a risk, for Anthracite Coal stocks are rapidly rising in value.

The shares to be sold are limited, and are nearly all subscribed for. Immediate application is necessary to secure my. Office, No. 21 Broadway, Room No. 56.
